No. 580

**Introduced by Senator Escutia
(Principal coauthor: Senator Alarcon)**

February 18, 2005

An act to amend Section ~~382.1~~ *130311.5 of the Health and Safety Code, and to amend Sections 382.1 and 739.1 of of the Public Utilities Code, relating to the Public Utilities Commission utility low-income assistance programs.*

LEGISLATIVE COUNSEL'S DIGEST

SB 580, as amended, Escutia. Public Utilities Commission: Low-Income Oversight Board.

Under existing law, the Public Utilities Commission has regulatory authority over public utilities and can establish its own procedures, subject to statutory limitations or directions and constitutional requirements of due process. Existing law establishes a Low-Income Oversight Board to advise the commission on low-income electric and gas ~~customers~~ *customer* issues and to serve as a liaison for the commission to low-income ratepayers and representatives. Existing law specifies the membership of the board.

This bill would expand the duties of the board to include advising the commission on low-income water customer issues and to serve as a liaison for the commission to those low-income ratepayers and representatives. The bill would increase the membership of the board by 2 persons selected by the commission, the first with expertise in the low-income community and who is not affiliated with any state

agency or utility group, and the second who is a representative of a water corporation.

Existing law requires the commission to establish a program of assistance to low-income electric and gas customers, referred to as the California Alternate Rates for Energy or CARE program. Existing law requires that each local publicly owned electric utility, as defined, ensure that low-income families within the utility's service territory have access to affordable electricity, that the current level of assistance reflects the level of need, that the utility consider increasing the level of discount or raising the eligibility level for any existing rate assistance program to be reflective of customer need, and that the utility streamline enrollment for low-income programs by collaborating with other electric or gas providers within the same service territory.

This bill would expand the duties of the Low-Income Oversight Board to include assisting the commission in complying with certain requirements of the CARE program.

Existing law, the Health Insurance Portability and Accountability Implementation Act of 2001, until January 1, 2008, makes an office established by the Governor within the Health and Human Services Agency responsible for implementing the provisions of the federal Health Insurance Portability and Accountability Act (HIPAA).

This bill would require the office within the Health and Human Services Agency to obtain any waivers of HIPAA needed to implement automatic enrollment of persons enrolled in the Medi-Cal program or treating Healthy Families Program, in the CARE program. The bill would require the office to cooperate with any local publicly owned electric utility to obtain any waivers of HIPAA needed to facilitate enrollment of persons enrolled in the Medi-Cal program or Healthy Families Program, in a low-income assistance program adopted by the utility.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: no.
